

Study of Arsenic-Resistant Yeast

By Lali, Tayyaba / Muneer, Bushra

Book Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Isolated from Industrial Wastewaters of Lahore | Signaling the significant amount of increasing rates of environmental reservoir pollution, heavy metals are considered the most obnoxious of all. Of these we carried out a study on bioremediation trends and patterns of eukaryotic systems and isolated Arsenic-Resistant Yeast species from Lahore Canal Drain and Effluents from Kasur Tanneries, Raiwind and Kala Shah Kaku. The isolates were tested for the arsenic resistance, morphological changes and optimal growth parameters under the arsenic stress. The isolates were also checked for cross-metal resistance checks, evaluated by 18S rRNA verification and identified by homology search tools. This study, therefore, shall help in resolving arsenic-related bioremediation problems as the isolates bioaccumulate arsenic and also give an insight into how the eukaryotes respond to arsenic stresses in their vicinity. | Format: Paperback | Language/Sprache: english | 88 pp.

Reviews

This composed book is excellent. it was actually writtern very perfectly and valuable. I found out this book from my i and dad advised this book to learn.

-- **Maymie O'Kon**

Here is the finest ebook i have got read until now. It really is simplistic but excitement within the 50 percent in the book. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Lupe Connelly**
