Glass of Four Millennia (Hardback)

By Martine Newby

Ashmolean Museum, United Kingdom, 2006. Hardback. Book Condition: New. 210 x 150 mm. Language: English . Brand New Book. This book charts the development of Glass over four millennia -- from 18th Dynasty Egypt, through to the present day -- illustrated by 56 examples from the collections held by the Ashmolean Museum. The earliest fragments are from a Meopotamian glass beaker, dating from the 15th/14th century BC and found relatively recently in Iraq; the earliest complete piece is a small, green fish-shaped dish from Ancient Egypt dated 1400/1300 BC. The invention of glass-blowing in the first century BC revolutionised the glass industry -- two early Roman vessels are illustrated -- the later discovery of the moulding process is illustrated by moulded bottles from Northern France. Most of the later examples are English, from early eighteenth-century wine bottles and engraved wine glasses, including examples by William Beilby and an Amen glass c1740/50, ending with the contemporary Finzi bowl engraved by Lawrence and Simon Whistle c.1981 to commemorate the composer Gerald Finzi (1901-56).

Reviews

The publication is fantastic and great. It really is basic but shocks from the 50 percent from the ebook. Its been written in an remarkably easy way in fact it is only soon after i finished reading this ebook in which really changed me, alter the way in my opinion.
