

Global Food Security: Challenges for the Food and Agricultural System

By OECD Organisation for Economic Co-operation and Development

Oecd Publishing. Paperback. Book Condition: New. Paperback. 160 pages. Dimensions: 9.1in. x 6.3in. x 0.4in. This study examines how changes to the functioning of the world's food and agriculture system can contribute to reduced hunger and the attainment of global food security. The challenge is wide ranging and multi-faceted. While food production will respond to the demands of a rising and more affluent world population, effective government policies can stimulate productivity and contain upward pressure on food prices. They can also help ensure that land and water resources are used more sustainably, and that farmers have the capacity to manage risk and adapt to climate change. Trade will have an important role to play in ensuring that resources are used efficiently and sustainably, and in getting food from surplus to deficit regions. At the same time, multilateral reforms are needed to ensure that the world trading system functions more smoothly and fairly than it has done in the past. Approximately two-thirds of the world's poor live in rural areas, where farming is the principal economic activity. This study considers how government policies can raise the incomes of agricultural and rural households, and thereby improve poor people's access to food. Yet while...

Reviews

An exceptional pdf and also the typeface applied was intriguing to read through. It is definitely simplified but excitement in the 50 % in the ebook. I discovered this ebook from my dad and i recommended this pdf to find out.

-- Jarod Ward

Complete information for publication enthusiasts. It is really basic but shocks inside the fifty percent of your book. I am just delighted to let you know that this is basically the finest book i have read through in my individual lifestyle and might be the best pdf for actually.
