

Outliving Cancer: The Better, Smarter, Faster Way to Treat Cancer

By Robert A. Nagourney

Basic Health Publications. Paperback. Book Condition: New. Paperback. 224 pages. Dimensions: 8.9in. x 6.0in. x 0.6in. By rethinking what cancer is and how it behaves, Dr. Nagourney developed a smarter, more effective way to treat cancer patients. In Outliving Cancer: The Better, Smarter Way to Treat Your Cancer, Dr. Nagourney describes the scientific rationale for his particular approach to cancer medicine-- beginning with an interest in cancer as a disease and his good fortune to work with many accomplished physicians to the obstacles he encountered along the way. He also expands upon the profound impact the concept of programmed cell death has had upon his worldview. In this book, readers will come to understand that cancer is not what it once appeared to be, that its management has often been ill conceived and ill applied. And finally, the reader will see that simple insights have enabled Dr. Nagourney to demonstrably improve his patients outcomes. By taking a fresh look at some of medicines most sacrosanct dictates, he has found a better, faster, smarter way to solve even the most complex problems. This item ships from multiple locations.
