John Hunt Publishing. Paperback. Book Condition: new. BRAND NEW, Striking at the Roots: A Practical Guide to Animal Activism, Mark Hawthorne, Animal protection is one of the most passionately debated issues of our day. In light of recent legislation and intensified pressure put on activists around the world, those advocates fighting for animal liberation or even animal welfare need a single resource covering the major, and some minor, models of animal activism. While the majority of people know nothing about animal oppression, which is well hidden from public view, there is a growing network of compassionate individuals who believe that all animals - human and non-human - have the right to live free from abuse and exploitation. From the clothing they wear to the food they eat, these animal activists speak up for animals in countless ways, seeking to reduce the cruelty suffered by other sentient beings."Striking at the Roots: A Practical Guide to Animal Activism" brings together the most effective tactics for speaking out for animals and gives voice to activists from around the globe, who explain why their chosen models of activism have been successful - and how others can get involved.
