RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 168 pages. Dimensions: 9.7in. x 7.4in. x 0.4in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1901 Excerpt: . . . oils can often be used advantageously for thinning down the heavier oils in order to make a grade of oil suitable for some special purpose. Most of the lighter oils are quite inflammable, and, consequently, due care must be taken to prevent their ignition. 5. Volatile Oils. --Benzine, naphtha, and turpentine are used considerably in shops for cleaning purposes; these oils evaporate very rapidly and form vapors that are highly inflammable. If these vapors are mixed with air in certain proportions, they will form explosive mixtures that need but a spark to ignite them. For this reason, great care should be taken not to have a naked light or any fire close to a place where any of these volatile oils are stored or used. 6. Oil for General Shop Use. --For general shop use, a mineral oil having considerable body is well adapted. It...
