By Land Type Associations Conference

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 128 pages. Original publisher: Newtown Square, PA : U. S. Dept. of Agriculture, Forest Service, Northeastern Research Station, 2001 OCLC Number: (OCoLC)50014894 Subject: Landscape protection -- United States -- Congresses. Excerpt: . . . associated rare plants and animals, etc. are valuable and academia, and the public, is strongly recommended. (Of encouraged. course, such review should examine adherence to these standards, as well as any supplemental Forest Service Regional standards.) Such efforts encourage Map Unit Validation standardization and correct errors. Especially important is edge-matching LTAs between Forests or other Display Criteria administrative units. Coordinated strategic planning Display criteria are important considerations in among all the partners will greatly ease this process. communicating LTAs (or any map units, for that matter). The integration of five elements (geomorphology, Glossary climate, geology (bedrock and surficial), soils, and potential vegetation), while ecologically accurate, is Bedrock Geology. - Characteristics of the consolidated difficult to display and communicate. In display criteria material at the earths surface or that immediately the user has considerable latitude; standards are not underlies soil or other unconsolidated, surficial deposits, appropriate. Therefore,...
