MIT Press Ltd. Hardback. Book Condition: new. BRAND NEW, Making Democracy Fun: How Game Design Can Empower Citizens and Transform Politics, Josh A. Lerner, Anyone who has ever been to a public hearing or community meeting would agree that participatory democracy can be boring. Hours of repetitive presentations, alternately alarmist or complacent, for or against, accompanied by constant heckling, often with no clear outcome or decision. Is this the best democracy can offer? In Making Democracy Fun, Josh Lerner offers a novel solution for the sad state of our deliberative democracy: the power of good game design. What if public meetings featured competition and collaboration (such as team challenges), clear rules (presented and modeled in multiple ways), measurable progress (such as scores and levels), and engaging sounds and visuals? These game mechanics would make meetings more effective and more enjoyable -- even fun. Lerner reports that institutions as diverse as the United Nations, the U.S. Army, and grassroots community groups are already using games and game-like processes to encourage participation. Drawing on more than a decade of practical experience and extensive research, he explains how games have been integrated into a variety of public programs in North and South America. He offers rich stories of game techniques in action, in children's councils, social service programs, and participatory budgeting and planning. With these real-world examples in mind, Lerner describes five kinds of games and twenty-six game mechanics that are especially relevant for democracy. He finds that when governments and organizations use games and design their programs to be more like games, public participation becomes more attractive, effective, and transparent. Game design can make democracy fun -- and make it work.
