

## Extracts from Lectures on Therapeutics

By George W. Boskowitz

General Books LLC. Paperback. Book Condition: New. This item is printed on demand. Paperback. 36 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1910. Excerpt: . . . CLASS II. -- STIMULANTS AND EXCITANTS. 1. GENERAL STIMULANTS. Nux vomica, Capsicum, Xantoxylum, Eucalyptus, Alcohol, Quinine, Beer and Malt Extracts. NUX VOMICA, Strychnos Nux Vomica, Vomit Nut, --Loganiaceae, --East Indies. Specific symptomatology: broad, pallid tongue. Physiological action: Nux vomica and its active principle, Strychnine, act on the spinal cord and the medulla; the full medicinal dose causes an increase of reflex activity, of respiratory rate, pulse force, arterial pressure, and a general systemic excitement with unusual acuity of hearing and vision. Nux is stimulant, while Strychnine is sharply shocking. Nux causes general excitement, excites the motor tract of the cord, and increases receptive activity of the sensory tract; it is a direct stimulant to the heart muscle, also a powerful excitant to the respiratory center; it especially stimulates the Pneumogastric nerve. While it has no direct effect on the bodily temperature, it will warm up...

### Reviews

*It is one of the most popular publication. It really is written in easy words and not difficult to understand. You are going to like how the author wrote this book.*

-- **Prof. Evans Balistreri DDS**

*Completely essential go through book. This is for all who state there had not been a worthy of reading through. It is extremely difficult to leave it before concluding, once you begin to read the book.*

-- **Lydia Legros**
