AK Press, United Kingdom, 2013. Paperback. Book Condition: New. 190 x 127 mm. Language: English . Brand New Book. Doug Peacock, as ever, walks point for all of us. Not since Bill McKibben's *The End of Nature* has a book of such import been presented to readers. Peacock's intelligence defies measure. His is a beautiful, feral heart, always robust, relentless with its love and desire for the human race to survive, and be sculpted by the coming hard times: to learn a magnificent humility, even so late in the game. Doug Peacock's mind is a marvel; there could be no more generous act than the writing of this book. It is a crowning achievement in a long career spent in service of beauty and the dignity of life. Rick Bass, author of *Why I Came West* and *The Lives of Rocks* Our climate is changing fast. The future is uncertain, probably fiery, and likely terrifying. Yet shifting weather patterns have threatened humans before, right here in North America, when people first colonized this continent. About 15,000 years ago, the weather began to warm, melting the huge glaciers of the Late Pleistocene. In this brand new landscape, humans managed to adapt to unfamiliar habitats and dangerous creatures in the midst of a wildly fluctuating climate. What was it like to live with huge pack-hunting lions, saber-toothed cats, dire wolves, and gigantic short-faced bears, to hunt now extinct horses, camels, and mammoth? Are there lessons for modern people lingering along this ancient trail? The shifting weather patterns of today what we call global warming will far exceed anything our ancestors previously faced. Doug Peacock's latest narrative explores the full circle of climate change, from the death of the megafauna to the depletion of the ozone, in a deeply personal story that...
